Projects

The Fable House
AngularJS, Grunt, Express, Bootstrap, Animatron, Snap.svg, MongoDB, Node.js

Choose your own adventure interactive storybook for kids and parents. Capstone project, I created the animations, vector graphics, the story trees and the functionality.

Twig of Life
AngularJS, Bower, CSS3, D3.js, Flask, EOL API, Express, HTML5, Python

Group project to develop an interactive tree of life. My contribution was creating a collapsible interactive dendrogram that displayed taxonomic relationships using D3 and parsing an immense JSON file.

Basket Stats
Node.js, Chart.js, SportsTrader API, Express, HTML5, Gulp, SASS, Jade, PostgreSQL

Comparative statistics visualizations of opposing NBA teams. My contribution was developing the look of the site including the stats visualizations.

Space Raptors
Unity, GIMP

Group project to create a 1980s style side scroller arcade game. Created all in game assets as well as character and environment designs.

Taste of Zen
HTML5, CSS3, jQuery, JavaScript

A meditation timer app that dynamically displays Zen koans and quotations.
